RE: GUHO CORPORATION
DPW PROJECT NO. 05283

Mr. Miller,

Guho Corporation has been an established client of U.S. Bank since 1996. During the past 8 years, the relationship has grown to include numerous deposit and investment accounts, along with various extensions of credit, both secured and unsecured. Guho Corporation has had an unsecured line of credit since 2001, during which time the line has never been utilized.

In addition to the deposit and lending relationship, U.S. Bank has had the opportunity to partner with Guho Corporation on several construction projects. All of these have been managed in an exemplary manner, on time, and on budget.

U.S. Bank holds the relationship with Guho Corporation in the highest regard and looks forward to a long term partnership for the future. Guho Corporation has been, and continues to be, a valued customer of U.S. Bank.

Should you have any questions, please give me a call.

Sincerely,

Mark Munroe
Vice President & Senior Relationship Manager
